POMONA, CALIFORNIA

Prices like these  
are seldom available

**BUY NOW!**

To our Retail customers, accept our grateful appreciation for your continued patronage. To prospective buyers we urge you to try our field freshness, prompt service and super quality that has kept our customers coming back every year for more.

**ORDER WITH CONFIDENCE** of getting what you select. We have substantial stocks of most varieties and substitutions will seldom be necessary. No substitutions are ever made unless authorized. Be sure to mark your order **YES** or **NO** if we may substitute, should we be out of any particular variety.

**NOTICE:** It is important to read the following before planning your order.

**TERMS** are cash with order—check, draft or money order. Postage paid on all retail orders in the U.S.A.

**MINIMUM ORDER \$10.00 ON SALE PRICES**

**POSTAGE OFFER:** If you will send \$1.00 to help pay postage and packing, we will include 3 times the value in extra plants—our selection.

Iris and Daylilies shipped June 15th through October. Spruia and Louisiana Iris shipped August 15th through October. State shipping date preferred.

Please list varieties alphabetically as it will assist us in filling your order at a greater speed.

California residents whose orders are being shipped to California points please add California sales tax of 4%.

If you do not plan on using this list please give it to a gardening friend.

***World famous bearded Iris***

**HOW TO GROW IRIS**

There is no secret in growing iris—the following simple suggestions will insure success, and you will be more than repaid when the next iris-time comes around: Select a sunny, well drained location. Do not plant too deeply—the rhizomes should be just below the surface of the ground. Be sure the roots are firmed in the ground securely. Keep well watered until the plants are established. Fertilize lightly at least twice a year with a good commercial fertilizer, or well-decomposed manure, but be sure this does not come in direct contact with the rhizome—it is the roots which need the food. Divide and transplant iris every three years to insure maintaining good size flowers and abundant bloom.

<b>YELLOW ORGANDY</b> —Pale yellow, green tinged, heavily ruffled..	2.00	1.00

## LOUISIANA IRIS

### Shipment made after August 15th

The color range of this enchanting group of iris is large, ranging from the purest white through pale pinks to rose, coral tones, soft yellows, rust and copper, blues of every shade, rich old reds, to the blackest purples and wine colors. The shape and size of the flowers vary with the variety, those of the famous Abbeville type are flat and resemble a Japanese iris, while others are crisp and starched looking.

Louisiana iris are as easy to grow as bearded iris, although they prefer semi-shade, a soil enriched with plenty of humus and can take a lot of manure—in fact we have planted them using half soil and half manure, and the results have been wonderful. They are heavy feeders. Keep well watered prior to, and during the blooming season. Shipment made August 15th through October.

<b>ACCENTS DARK</b> —Large, black, purple, flaring form.....	1.00	.50
<b>AMETHYST STAR</b> —Warm rosy amethyst color, illuminated by a six-pointed star of gold.....	5.00	Net

## MEDIAN IRIS

**All prices are for top quality, husky plants**

These small rhizomes can be planted in low edgings, rock gardens, window boxes, or pots. Unlike other iris, they start blooming with the first inkling of spring warmth (first of March here). Planted in same manner as bearded iris and shipped at same time.

<b>ZINGARA</b> —Bright, orange yellow variegata with reddish falls....	.75	.50

## DAYLILIES – (Hemerocallis)

Daylilies are one of the most satisfactory perennials and grow well in almost any location. They are lovely in the border, and are particularly well adapted to naturalizing, as they do well in half-shade. Ordinary garden soil, enriched with humus and manure will produce an abundance of bloom. Varieties can be selected to stretch the blooming season from spring to early autumn. Plant the crowns one inch below the surface, with roots spread slightly downward and water in well. Hemerocallis can be left undisturbed for many years. Time of Shipment: June 15th through October.

<b>ALBION</b> —Light lemon near white, big flowers.....	1.00	.50

<b>YELDRIN</b> —Very small bright gold multiflora.....	1.00	.50
<b>YELLOWSTONE</b> —Wide, ruffled, pale yellow.....	1.00	.50

## SPURIA IRIS

### *For cut flowers and garden beauty*

The Spurias, sometimes called "Butterfly Iris," resemble the Dutch irises which are extensively used by florists, but the flowers are larger, and numerous blossoms are borne on the three- to four-foot stalks, making a very showy display in the garden, and are superb as cut flowers. They are not as fragile as bearded iris and keep for days.

Spurias require very little care, and can be left in a permanent location, so should be given room in which to grow. They thrive in full sun, or partial shade, and do best if kept well watered in the early spring and throughout the blooming season. We recommend planting in the fall, but it is possible to ship early in the spring. **KEEP VERY MOIST UNTIL ESTABLISHED.** Perfectly hardy, they are worthwhile additions to any garden. Spurias bloom at the same time as the late flowering bearded iris. Shipments made August 15th through October.

<b>AZURE DAWN</b> —Pale blue-lavender flower; pale yellow signal...	.85	.55
<b>BRONZESPUR</b> —Sepia, old gold, yellow blend.....	.75	.50

<b>WHITE HERON</b> —Almost pure white, falls shaded yellow.....	1.50	1.00
<b>ZEPHROSO</b> —Honey colored, rose overlay, graceful.....	2.50	1.45

## STYLOSA IRIS

Stylosas are sometimes called Algerian Iris or Unguicularis. These are unique among the iris for they flower periodically throughout the late fall and winter—October to March. Different ones excel at different times, so get a number of color forms. They are not hurt by snow, but in the coldest regions are best grown in frames or pots. They are shipped mostly in the fall.

<b>ALBA STYLOSA</b> —Pure white with a deep yellow signal patch....	2.00	1.35
<b>BRIDAL PINK</b> —Lovely, clear, light orchid pink. Rhizomes small..	2.50	1.75

<b>ORCHID STRIPED STYLOSA</b> —Beautiful, colorful; soft lilac- pink, marbled and striped in bright orchid.....	3.50	1.95

## PERENNIAL GARDEN PHLOX

Perennial phlox do best in fertile well-drained soil, preferably enriched with rotted manure. They bloom well in full sun or in partial shade. They should be divided every 3 or 4 years for best results. By removing the old, dead blossoms the blooming season is prolonged and it eliminates inferior seedlings. Plenty of water (not overhead) during dry weather is necessary for good flowers. Shipment in Spring or Fall.

<b>DAILY SKETCH</b> —Light salmon-pink with a crimson rose eye....	.75	3/2.00
<b>FLASH</b> —A beautiful flower of brilliant crimson-red.....	.65	3/1.75
<b>MARIE LOUISE</b> —Large heads of pure white.....	.75	3/2.00
<b>PURPLE KING</b> —A medium purple with a sparkle.....	.85	3/2.25
<b>STARLIGHT</b> —Rich bluish violet; sharp white star in center.....	.65	3/1.75

## SIBERIAN IRIS

Tall beardless irises with grass-like foilage, whose dainty flowers are carried on slender graceful stems and are excellent for cutting. The plants like moisture and will do well in partial shade. Best left undisturbed as they are most effective in clumps. Shipment is made August 15th through October.

<b>FAIRY DAWN</b> —Standards white; falls rosy; effect of pale pink....	2.00	3/5.00
<b>MOUNTAIN LAKE</b> —Medium blue with lighter blue centers, crisp semi-flaring, slightly ruffled.....	1.00	3/2.00
<b>MRS. PERRY</b> —Light lilac-pink with pronounced decorative arms..	1.00	Net
<b>MRS. ROWE</b> —Dainty light lavender pink; profuse bloomer.....	1.00	Net
<b>ROYAL HERALD</b> —Rich plum purple self, velvety falls.....	1.00	3/2.00
<b>SNOWY EGRET</b> —Large white ruffled blooms. Most popular for garden accent .....	1.00	3/2.00
<b>TROPIC NIGHT</b> —Rich, handsome variety of deepest violet blue. In heavy demand.....	1.00	3/2.00
<b>TYCOON</b> —The largest Siberian. Deep violet, blue. Outstanding..	1.00	3/2.00

## TRITOMAS

The hottest sun and any soil that has drainage will accommodate Tritomas which are hardy almost anywhere. Tritomas are SUN lovers so don't try growing them in shade. They are quite drought resistant. In mild climates they are evergreen which makes them ornamental the year round. All are ornamental as cut flowers. Tritomas do not like to be divided very often and a three or four year old clump will be one of the most spectacular subjects in your garden. For the colder sections of the country spring plantings are recommended. Shipment in spring or fall.

	Retail	Sale
<b>GOLDEN SCEPTRE</b> —Vivid golden yellow; rich intense color.....	.85	3/2.00
<b>GOLDMINE</b> —Beautiful soft golden amber; long bloomer.....	.85	3/2.00
<b>PRIMROSE BEAUTY</b> —Enchanting light primrose yellow.....	.85	3/2.00
<b>RED CORAL</b> —Densely flowered spikes of deep rosy coral.....	1.00	3/2.50

<b>SUMMERTIME</b> —Large flame red flowers; eye catchers.....	.85	3/2.00
<b>WHITE GIANT</b> —Beautiful spikes of pale yellow that turns to ivory as the flower ages.....	.85	3/2.00

## ONCOBREDS

These iris are the result of crossing the oncoyclus (natives of Iran), with some of our own bearded iris. The rare beauty of the oncoyclus has been preserved to a marked degree, and increased vigor and hardiness have been secured from these crossings. All of them will grow well in mild climates, and may have proven absolutely hardy in cold sections. They require good drainage, full sun, and a light protective covering in cold climates. They grow better with little water in the summer. Shipped same time as bearded iris.

<b>AZIM</b> —Olive-buff, excellent in flower arrangements.....	1.00	.75
<b>BALTIS</b> —Deep, rich violet, useful for cutting.....	.75	3/1.00
<b>BED TIME</b> —Brown, heavy violet overlay, veined purple.....	.75	3/1.00
